INTRODUCTION

R. L. POLK & CO. OF CALIFORNIA, publishers of the Chico and Oroville City Directory, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1934-35 edition of the Chico and Oroville Directory, which also includes directory of Durham, together with a directory of the rural free delivery box holders on routes which are pivotal from the Chico and Oroville Post Offices.

Confidence in the continued growth of Chico and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Chico, Oroville and vicinity to the world.

The enviable place occupied by R. L. POLK & CO'S. directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivalled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Chico and Oroville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Chico is 8,920, based on the number of individuals' names in the alphabetical section of this directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

Six Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE for Chico, pages 13 to 20, for Oroville, opposite page 193; printed on tinted paper, contains advertisements of leading manufacturing, business and professional interests of these cities and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community, like the Chico and Oroville district, the necessity of having this kind of information immediately available is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Chico is included in pages 21 to 148. A similar list for Oroville is contained in pages 195 to 258, for Durham in pages 279 to 310.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for Chico covers pages 149 to 192. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character "o," placed immediately after the name of the householder. A similar guide for Oroville is contained in pages 259 to 278.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 283 to 309. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE RURAL ROUTES DIRECTORY, pages 311 to 350, includes the box holders on the rural routes served by the Chico and Oroville Post Offices.

THE NUMERICAL TELEPHONE DIRECTORY for Chico and Oroville is given in pages 351 to 384.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Chico, Oroville and vicinity, for business men everywhere, realize that the city directory represents a community as it really is.

The Chico Directory Library

Through the courtesy of the publishers of the Chico and Oroville Directory, a Directory Library is maintained in the offices of the Chico Chamber of Commerce for free reference by the general public. This is one of the 400 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

CHICO

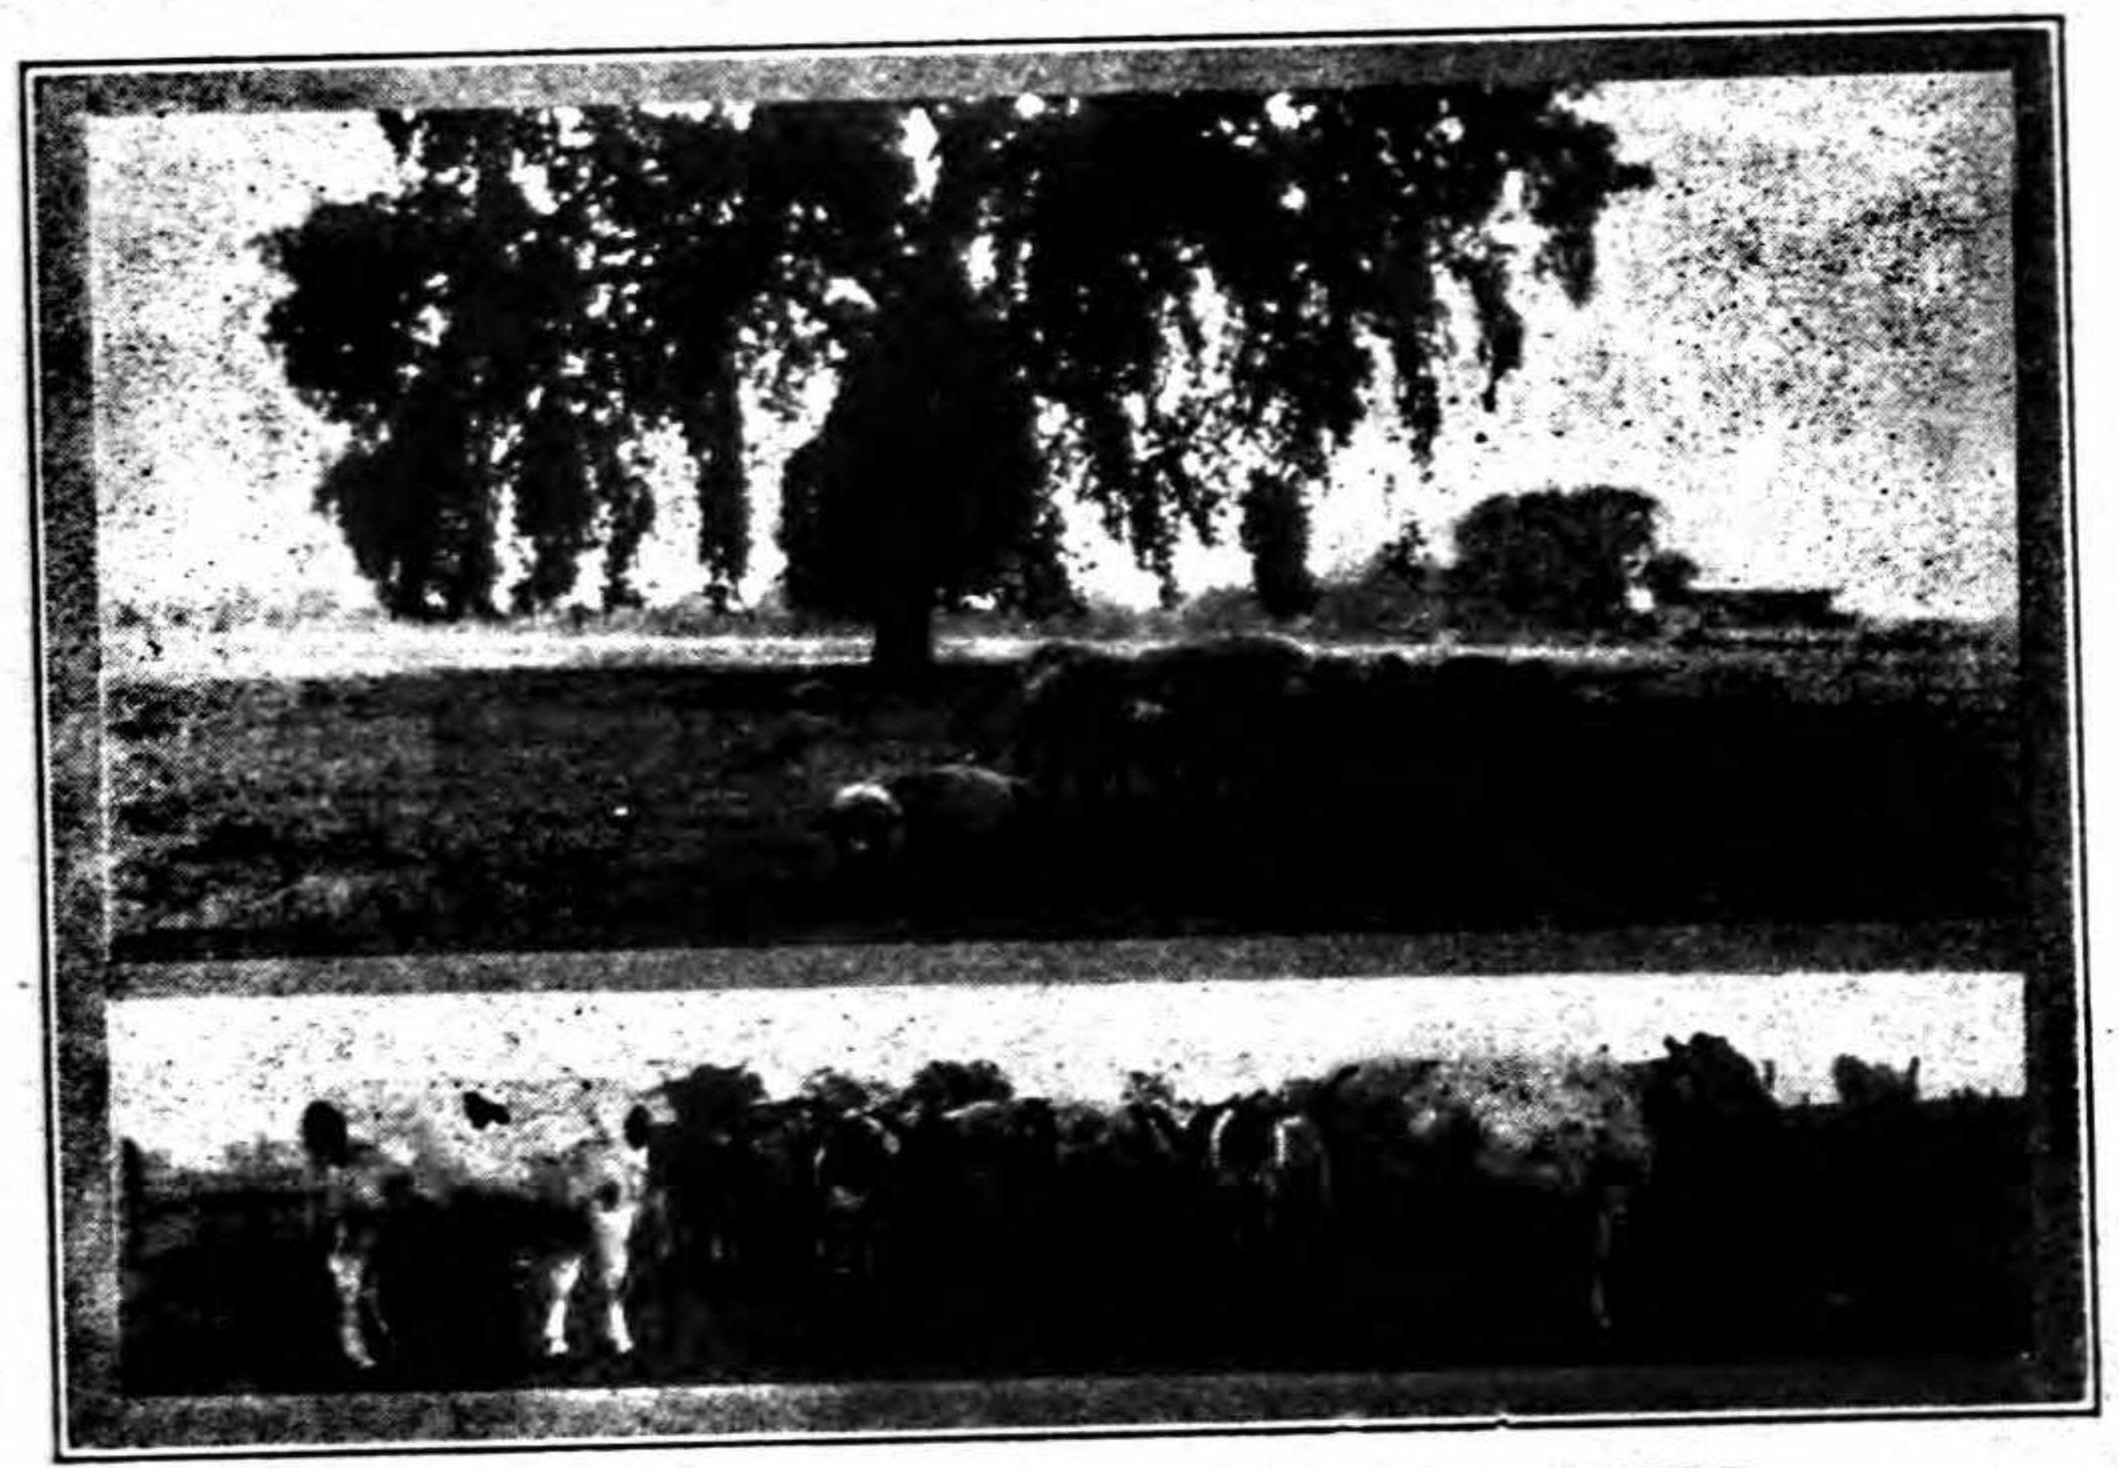
The Growing Commercial Center of the Upper Sacramento Valley

By **LESTER B. OSBORN,**
Secretary Chico Chamber of Commerce

CHICO, CALIFORNIA, in Sacramento Valley; 98 miles north of Sacramento; 185 miles north of San Francisco ;on the main Southern Pacific line and California State Highay; northern terminus Sacramento Northern Railroad. Six Southern Pacific trains daily; seven fast Electric trains daily. Over-night freight service from San Francisco.

Founded in 1849 by General John Bidwell, California pioneer, Congressman and candidate for President in 1892.

Growth has been rapid since subdivision of Bidwell Ranch of 25,000 acres into small farms; center of rich agricultural district; location of United States Plant and Seed Introduction Station, one of the most important stations maintained by the Department of Agriculture. Famous Magalia Channel mining section only 19 miles east of Chico.



AGRICULTURAL SCENE NEAR CHICO

Has gained considerable fame for its wonderful natural park of 2,400 acres, presented to the city by General and Mrs. John Bidwell. This park extends from the business district ten miles into the Sierra Nevadas and contains deep canyons, and other scenic wonders, including Sir Joseph Hooker Oak, named after Sir Joseph Hooker, the English naturalist, who first commented on its size. Hooker Oak is the largest oak tree in the world.

With an average mean winter temperature of 45 to 50 degrees and an average mean summer temperature of 70 to 75 degrees, Chico has one of the finest climates in California. The cool nights in summer and the relatively low humidity make sleeping in the open air a joy the year round. During the warmer weather of July and August, a few minutes' ride into the mountains will bring you to cool camp sites among the pines and excellent trout fishing. Forty-five minutes' driving will take you to the summit and the snow line.

The soil of Chico district is rich loam six to twenty feet deep. One of the best bodies of land in Sacramento Valley; grows a great variety of crops including grain, vegetables, berries, almonds, alfalfa and fruits of all kinds.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for error can be or is assumed nor can the publisher furnish further information than that shown.

OROVILLE

County Seat of Butte County

OROVILLE, California, founded 1851 and County Seat of Butte County since 1856 and incorporated January 6, 1906, is located on the banks of the Feather River.

Oroville's first rise to fame was in the gold days, being the scene of second major discovery of gold in California. It was the Mecca for prospectors. Later it assumed prominence in the days of hydraulic operations. Mining now being revived.

Oroville is the home of the earliest navel oranges produced without the use of smudge pots. Packs one-third of the processed ripe olives and fifty per cent (50%) of the olive oil, mission tree ripened olives of the highest oil contents.

Favored by good water, natural gas, electric power, good roads, excellent shipping facilities, schools and churches, Oroville is fast becoming one of the most prominent cities in Northern California.

By virtue of location Oroville is the gateway to the far famed Feather River Wonderland or Sportsman's Paradise. Western entrance to the Feather River Highway now building, the most scenic and an all year route, will be completed in 1936.

Agricultural advantages, low cost of land, abundance of water at reasonable rates, climatic conditions and soil for almost anything, recreations beyond compare.

Directory of Householders, Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide

1934-1935

Copyright, 1934, by R. L. Polk & Co. of California

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Names Appearing in Bold Type . . .

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

IN LINE with the economic trend to standardize all generally used products, THE ASSOCIATION OF NORTH AMERICAN DIRECTORY PUBLISHERS has decided to make, and is now making, all city directories published by Association members conform to certain standards in regard to makeup, compilation and classified business headings which will simplify and facilitate their use.

TRADE! You like

to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

Locating Missing Heirs
Finding Lost Persons

This is only one of the many offices that the modern directory successfully fills

The directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the city directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

.....Make More Use of Your City Directory.....

THIS CITY DIRECTORY
is placed on file in various Directory Libraries maintained by the publishers throughout the United States.

Advertise Your Good Things

MANY a limping business is kept from healthful development by the morbid aversion of one of a firm's members to publicity—perhaps he is honestly so conscious of the excellency of his wares that he expects the world to search them out. But the busy world hasn't time. If you have a good thing to sell proclaim it from the housetops. The world wants good things, but it can't discover them in hiding places. Bring them into the market place.

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business

ADVERTISING is the power of an idea multiplied.

CITY DIRECTORY USES

1. Sales Promotion

a—Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b—Leads—

Determining parts of city best suited for increasing business. The alphabetical listings for each business and professional concerns, shows the names of the owners, partners or officers.

c—Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d—Building mailing lists and direct mail campaigns—

1. Listing of local people (Neighborhood List) within a given radius of business location. On your city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every buiness and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city. Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. Credit

a—Verifying customer's statements and information—

b—Information about customer—

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c—Determining character and stability of applicant for credit—

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another ond one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d—Identifying applicant and applicant's references—

The alphabetical directory gives complete information for each individual. (See information about customer). The references given by the applicant for credit can be identified in the same manner—who they are, what position they hold, etc.

e—Collecting accounts—

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. Delivery and Shipping

a—Routing—laying out route for delivery—

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b—Obtaining correct addresses—

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c—Locating streets, buildings, un-numbered houses—

A full description of every street—with location—is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the building along the streets.

4. Purchasing

The complete classified business section in the back of this directory makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. General Information

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing offices, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
